We have not had any meetings or elections since Covid hit, therefore we are continuing with the officers (listed above) for the time being.

JANUARY 1, 2025

Getting started again!

Faith Bradshaw & Nancy Faller hosted an informal get together at Paradox Farm today welcoming carriages & riders. 14 people some new and some old brought fantastic desserts to be shared after their drive/ride. It turned out to be a wonderful day to be out and about after all the rain & cold.

Faith held an informal meeting while we were feasting on the goodies. We had very active participation in talking about where we want the club to go as we try to get active again.

We first discussed insurance and as in previous discussions, in previous years, we decided to keep things as they are. **You MUST be a member to participate in ANY event/outing* even if you are a visitor/spectator/volunteer** (*that was a whole other discussion in itself!)

We went on to discuss holding a clinic to **educate riders AND carriage drivers** on how to desensitize your animals to each other safely. We all agreed this is something we need to do. This is where the discussion about events vs outings came into play. It was fun listening to all the opinions!

We talked about how to get more participation ESPECIALLY in putting on an event/outing/funday! (Forgive me I am going to keep calling it an event) How to get people to help, so the people putting on the event also get a chance to drive or ride. In the past the same 4-5 people put on the events and didn't get to play.

Faith volunteered to put on a (February event & Tommy Cope's riders volunteered to do something at TLC Farm in April.

We decided to forego any elections and keep things on an informal basis for now.

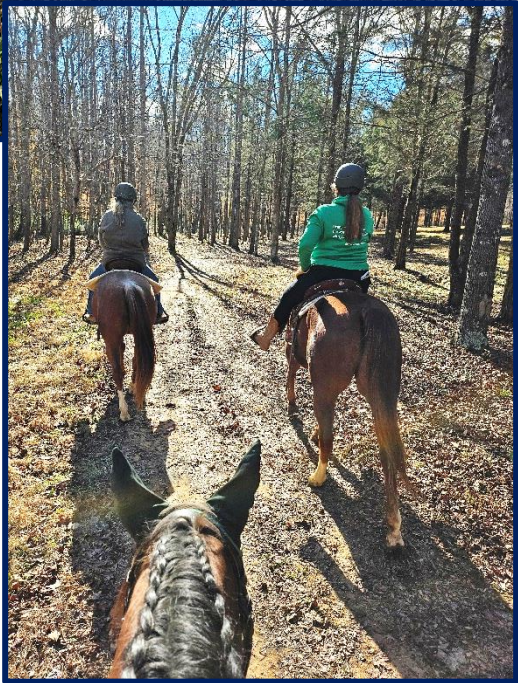

All in all it was a very successful drive/ride/meeting. Thank you all who came & thank you Nancy for the use of your farm.
